Dear Mother,

This mornings mail brought me another nice long and interesting letter from you. Oh! how much joy it gives me to get letters from my Dear Kind Mother. But the one I got this morning made me feel bad for in it you said that you were not well and that worries me no little but I trust and pray that you may soon recover. You must when you are unwell take medicine. You always was a great hand to go Sick rather than take anything. Now I think I will have to Scold you a little if you dont mind your Health a little better. Remember that in taking care of your self you are adding to my happiness for I would never know another happy moment were you to take Sick and Die and me away so far from you. Now I trust this will find you entirely recovered. I shall be uneasy until I hear from you again. I am afraid you dont tell me when any thing is wrong with your health now. I want you in all you letters to tell me whether you are well or not for if you dont I shall be imagining you sick all the time. I am in good health all excepting my throat was a little sore last night but it feels pretty well now. I am a pretty good Doctor for sore throat for I am afraid of it and as quick as it commences to get sore I begin Doctoring it.

Well the 135th Pa has took the field at last. They are about 2 1/2 miles from here. I think I will go down and see them Some of these days. I dont think you need send that Cough Medicine as my Cough is entirely well and the boots you can keep probably there will be a

chance of sending them sometime. Perhaps the Box will yet go. I would not trouble my self about it though I can easy get along with out it. I am writing this in a good deal of a hurry but I do all my letter writing in a hurry these times. I guess you can read this any how. So if it is not very well done no Difference. Well I guess I have nothing of any importance more to write so I will close. Give my love to all from your Loving and Affectionate Son.
